PITCH 2 MATCH | Spain

Digitalization for the industrial energy efficiency

Pitching session | **18th November 2026 at 10:00 – 11:00 CET**

The pitching session will be introduced by an industrial success story by the company **Pages Valentí** (Catalonia)

- It will showcast the integration of an AI-powered digital solution to optimise energy use and production planning.

Four organisations from Spain will then present their innovative digital solutions for industrial energy efficiency:

- **BECHAINED AI** (Catalonia, Spain)
  AI- Powered Digital Twins: optimizing energy use and industrial processes
  Stefano Melchior, CEO

- **ZERTIFIER** (Catalonia, Spain)
  IoT-powered automation for secure and efficient energy management
  Giovanni Da Mas, Project Manager

- **NESPRA** (Valencia, Spain)
  From Machines to Data: industrial IoT for real-time energy monitoring
  Cristian García, Sales Account Manager

- **LINKENER** (Valencia, Spain)
  From Data to Savings: digital energy management for industry
  Amado Veral, Finance and Business Operations
